

# Regional Rumblings

Vol. 2024 Newsletter of the South Texas Austin Healey Club

## The STAHC is Back!!!

Thanks to Ron Borden for getting our website transitioned back to our <https://www.stahc.org> address! Our events and newsletters will be available here. No more huge files via email. I'm trying to work smarter! Enjoy!

Visit our [STAHC Website](https://www.stahc.org) for details of events.

## March Event!!

FRIDAY, MARCH 22 11:00 AM

### CANYON GORGE TRAIL WALK AND LUNCH

This month's event will be on **Friday, March 22**. Since we have Healey friends all over central Texas, we will just meet at the Canyon Lake Gorge at **11:00 am**. **The address is Canyon Lake Gorge, 16029 S. Access Rd. Canyon Lake, TX. 78133** Follow the signs to the office and trails.

Here is the link to the Gorge: <https://canyongorgetours.com>. The pdf information sheet is on the website for your printing. I will be asking for a head count ahead of time but you will be responsible for purchasing your own admission. The trail hike is \$5 per person. The walking trail has many rest stops, benches and shade. It is flat, mulched and the incline is very gradual. It is one mile long so you could be walking 2 miles, at your own pace and however far you want to walk. It is a breathtaking walk with information signs that explain the geographical details and origin of the gorge. The guided tours are a bit more physical but not available that day because of school groups. There are restrooms available as well! More details are on the website and the info sheet. Hope this is of interest to you and that you will mark your calendars to join us! Bring your hydration vessel and we will provide light snacks.

After our hike/walk, we will go to Elio's Pizzeria in Sattler, TX, for lunch and visiting. I'm thinking it will be around 1:00 pm. Hope you will join us!

In hindsight.....

## Trashy People

The sun kissed their faces in full radiance as the cool wind carried notes of Spring to the twelve Healey people picking up the finest trash in the state of Texas. For 37 years the STAHC has kept the roads a bit cleaner and the drive more enjoyable around Blanco. The latest band made good time gathering all the things not fit to any longer remain in peoples vehicles. Along with the bits of cracked car plastic and beer cans was something one club member claimed to be a body bag. It was unoccupied thankfully. After liberal application of Wet Wipes and hand sanitizer the group headed into town to enjoy each other's company over lunch and an odd beer or two. Many stories were shared and plans made for the next event involving dinosaur tracks.

STAHC members on February 24 near Blanco

**And Happy Texas Independence Day!**  
**See you at the Gorge!**
